### ADAMS ELECTED CAPTAIN.

Of Normal Base Ball Team for Next Year—Members Entertained at Dinner.

The Normal school base ball team was entertained last night at the Linville hotel in honor of the closing of the season and of their victory over Warrensburg. The dinner was served at 6:30 o'clock. Rev. Robert L. Finch was the toastmaster of the occasion, and talks were given by Coach L. M. Eck, Prof. H. P. Swinehart, President Ira Richardson and Captain Reed Noblett of the team.

The games of the season were all replayed, the "bone heads" laughed over and the good plays commended. Base ball prospects for 1915 were found to be very rosy, as practically every man on the team will return.

At the close of the toasts the team showed their appreciation of Ed Adams' work this season by electing him captain of the team for the ensuing year. Pitcher Frank Ham was declared by a unanimous vote to have been the most valuable man to the team during the past year, and the handsome prize offered by Rev. Finch was awarded to him.

Rev. Finch has been one of the most loyal of the Normal's boosters this season, and the attitude of the men last night certainly demonstrated that he has been appreciated.

Those present were Reed Noblett, Ed Adams, Earl Brittain, Frank Ham, Eugene Bird, Walter Miller, Sam Long, Earl Richards, Marvin Dyer, Madison Wilson and Frank McKee of the team, Coach L. M. Eck, Rev. Robert L. Finch, H. P. Swinehart and President Ira Richardson.

### RURAL COMMENCEMENT.

Professor Cooper has been chosen as superintendent of the Skidmore schools for next year.

J. G. Thornhill Places a Large Plant on Either Side of the Walk Leading to the Court House.

Presiding Judge J. G. Thornhill put two large oleanders, one on the north and one on the south side of the walk leading to the east main entrance of the court house Friday. The plants add a very attractive appearance to the yard. Miss Nellie Wray planted two vines of climbing ivy, one on the band stand and one on the north side of the court house. Miss May Harvey planted a climbing ivy on the east side of the court house. All of the plants add much to the beauty and attractiveness of the yard. These plants are being placed here by these persons on their own free will and accord, and they should be congratulated on the feeling of public spirit which they have shown.

## BANKERS VS. P. O.

FAST BALL GAME PROMISED FOR TOMORROW AFTERNOON.

## FOR REST ROOM BENEFIT

Rev. Finch Will Be the Umpire—The Postoffice Line-Up—Bankers Are Confident of Winning.

One of the interesting ball games of the season will be played tomorrow afternoon at 3:30 o'clock at the Normal ball park, when the bankers will combat with the postoffice employees. The proceeds of the game will go toward the employment of a matron of the rest rooms in the court house, and will be in charge of the Federation of Women's Clubs. Many tickets are being sold today and a good crowd is expected.

The bankers have been practicing some and seem to be confident that they will win with ease. The postoffice force are not saying anything for publication, but rumor has it that they are going to show the bankers how to play ball. So it will be a hotly contested game.

The bankers haven't decided on their line-up, but they will be selected from the following: Joseph Jackson, Jr., Harry Allen, John D. Riehey, Ed Gray, E. E. Williams, John McDougal, Marve Curnutt, Rolla Alexander, Harvey McClary, Theodore Robinson, Arch Frank, George Kemp, Burt Rowley, George L. Wilfley, W. C. Pierce, George B. Baker, S. G. Gillam, James B. Robinson, C. D. Bellows, Harry Snyder, W. H. Allen, with Charles Martin as the man to take care of the bats.

Rev. Robert L. Finch of the First Christian church will act as umpire.

For the postoffice, the line-up is as follows: Catcher, Charles Moore; pitcher, Emmett Scott; shortstop, Cleve Funk; first base, Fred French; second base, Eldon W. Irvin; third base, Howard Watson; left field, George Meek; center field, Ernest Welborn; right field, Robert G. Sanders; utility, John Spickerman; pinch hitter, James Todd; water boy, Albert "Curly" Williams; bat boy, Lefe Stamper; subs, Don Davis, J. S. Clark, Herman Barton, James Muntz, Louis Grems, Ed Dale, John Porter, Alva Maul, Madison Pearson and Joseph Updegraff.

P. S.—As we go to press we understand the postoffice force are greatly disheartened in the loss of their star pitcher, Louis Grems, better known as "Lefty Louie," who jumped his contract and joined the Federals.

## COMMENCEMENT EXERCISES

Of the Maryville Conservatory of Music Thursday Evening—Eight in the Graduating Class.

The commencement exercises of the Conservatory of Music were held at the First M. E. church Thursday night. A most delightful program, representing the best in piano literature, was given. Rossini, Haydn, Moszkowsky, Bellini, Liszt, Weber and Beethoven were appreciatively interpreted.

Miss Hazel Everhart, Miss Martha Koch, Miss Virdah Daniels and Mr. S. F. Spahnower opened the program with the "Barber of Seville" overture on two pianos, and were followed by a duet by Miss Lida Ambrose and Miss Margaret Bolin, "Concerto in D." Mr. Spahnower gave a piano number, "Waltz in A flat," and Miss Lois Harrison and Miss Lucy Gee rendered "Romeo and Juliette" overture in a creditable manner. A piano selection, "Liebestraum in A flat," was very attractively performed by Miss Everhart, who was followed by Miss Koch and Miss Daniels in a duet, "Finale from Concerto in C." The program was concluded with "First Movement from Fifth Symphony" by Miss Harrison, Miss Gee, Miss Ambrose and Miss Bolin on two pianos.

Miss Marie Jones assisted on the program with four vocal numbers, Cadman's "Land of the Skyblue Water," Spross' "Will o' the Wisp," "My Heart is Singing," by San Souci, and "An Open Secret," by Woodman, which were thoroughly enjoyed by the audience.

Rev. R. L. Finch, pastor of the Christian church, presented the diplomas.

### LAST ASSEMBLY OF QUARTER.

Held at Normal This Morning—Summer Term Opening Monday.

The last assembly of the Normal school for this spring quarter was held this morning at the usual hour.

The base ball team marched into the room in a body and were heartily applauded. President Richardson then gave a talk, commending the work done by the team, and also thanked all the men who had supported the school in an athletic way during the basketball and track season. Each phase of the school life of the year was touched upon and the speaker told how the students, as well as the school were benefited and helped by all of the many things outside of the actual recitation work in which they had participated.

President Richardson then asked Prof. John A. Lesh, who is to leave the Normal soon, to make a talk to the students. M. Lesh stressed preparation. "No matter how great a position is offered you," he said, "It can mean absolutely nothing to you unless you have the preparation to take it and make good."

Mr. Lesh has been a valued member of the Normal school faculty, and it is with regret that his fellow workers and the student body see him take up his work in other fields. Mr. Lesh will attend Harvard University during the coming school year.

The summer term of the Normal will open Monday. The indications are for the largest attendance at any term of the school.

### ANGUS YEARLINGS AT \$8.90.

Hopkins Feeder Gets Fancy Price for Black Babies.

Superiority of yearlings over aged heaves as market toppers was shown here today in the sale of a load of choice Angus yearling steers and heifers, mixed, at the extreme high point of the session, or \$8.90. There were twenty head in the lot, the average weight of which was 950 pounds. The owner and feeder of this attractive load of "black babies" was Joseph Holker, a well known feeder of Hopkins. Mr. Holker has long had the reputation of turning out some of the best cattle that come to this market from Nodaway county.—St. Joseph Stock Journal.

### All Stars Open Season Here Sunday

The All Stars will open the baseball season in Maryville Sunday at Riffe's park with the fast team from Bedford. The Bedford team has two former league stars in Hal Reynolds and "Bill" Howie and with the team well balanced in other departments should give the All Stars a run for their money. The All Stars played the fast Conception College at Conception last Sunday and got away with the big end of the score and have strong hopes of repeating Sunday. Come out and give the team a good boost. Game will start at 2:30.

O. H. Mahugh was arraigned in police court Friday on a charge of drunkenness and was fined \$5 and costs.

## DIXIE JUBILEE CO.

CHAUTAUQUA ASSOCIATION SECURES FAMOUS COLORED SINGERS

## FOR FIRST TWO DAYS

For More Than Twenty Years This Company Has Delighted Audiences—Have Good Programs.

The Chautauqua association has secured for this season the famous Ferguson Dixie Jubilee Concert company. This company bears the reputation of being the best company of colored talent in the world. They will furnish the musical part of the program on the two opening days of the assembly, August 16 and 17.

There is really no necessity in writing any preamble or announcement to offering the Dixie Jubilee singers to

the American public. For more than twenty years this company, still in charge of W. C. Buckner, has been delighting audiences throughout the entire United States and Canada. During all that time it has been necessary to utter an apology either for the work or the actions of the company. For this entire time Mr. Buckner has been manager and basso. He was first known to the public as basso of the original Tennesseans, and is without question the best known basso and manager of his race.

Madame Neale Hawkins Buckner has been with the company ever since its start. Before her connection with this company she starred with one of the most popular musical attractions known to the theatrical world. She is the greatest soprano of her race and has been especially effective in building up the reputation of the company as the greatest jubilee attraction the country has ever known.

Honey Moore, tenor and humorist, has been with the Dixies for twelve years and is known wherever this great company has appeared.

Helen Smallwood, contralto, has been with the company two seasons, and is unquestionably the most popular and most satisfactory singer they have ever secured for that position.

M. E. Atkinson, tenor, has been with the company four seasons, and has won the approbation of every audience. He has an exceptionally high voice of splendid quality, especially pleasing in ballad and jubilee selections.

Aille B. Freeman, pianist, is one of the best soloists and her work with this splendid attraction has brought forth a great deal of very favorable comment.

Hilliard Bird, baritone, has been with the company for two years, giving the very best of satisfaction.

The programs presented by the Dixies, are the greatest successes ever presented by a jubilee company. They draw from a fine repertoire of music, rich in harmony and varied in selection.

### FLAG DAY, JUNE 14.

Acting Governor Painter Issues Proclamation for State Observance.

Acting Governor William R. Painter today issued a proclamation setting apart June 14 as Flag day and requesting that all public offices display the Stars and Stripes and that private citizens do likewise. He says that it is a patriotic custom throughout the republic, and it is proper for citizens to show their respect for it and inculcate the same in their children. ## ROOSEVELT SAYS ARMY WAS READY

Planned to Send Troops Into Coal Strike Region in 1902.

## SPARS WITH LAWYER WALES

Colonel, in Giving Testimony, Says He Was Prepared to Take Measures "Equivalent to Action in Time of War" to End Strike.

New York, May 28.—Theodore Roosevelt, as president, was to take measures "equivalent to action in time of war" to end the great strike in the anthracite mines in 1902. He was determined to take action even though an effort should be made later to impeach him for it.

Mr. Roosevelt so testified in giving testimony here before a referee in the suit of Alexander T. Wales, a lawyer of Binghamton, against John P. White, president of the United Mine Workers of America, for fees he alleges are due him for the part he took in settling the strike.

"In September," said Mr. Roosevelt, "the situation began to grow acute. It was a situation full of menace to the country. I regarded the attitude of John Mitchell, then head of the miners, as reasonable and the attitude of the operators as unreasonable and offensive."

### Army to Back Roosevelt.

"I made up my mind I would have to take drastic action unless the operators and miners got together. I intended to send in the United States army—I only wanted to get it in there, and I'd take care of the situation. I told Senator Quay of Pennsylvania I'd act, and I'd guarantee that the people of the eastern seaboard would have coal and have it right away. I told him if he would help me, he could vote to impeach me later if he wished. I asked Quay to arrange to have Governor Stone of Pennsylvania, when I notified the governor, send word to me he was unable to control the situation and that I would send in the army."

"I planned to have General Schofield to go in and take charge with the troops, and act practically as a receiver for the mines. I told the general it would be equivalent to action taken in time of war and that he must pay no heed to any other authority—no heed to a writ from a judge or anything else except my commands. He said he would do so."

Colonel Roosevelt said he kept his plan secret, even from the members of his cabinet. The operators, he said, persisted in their uncompromising plan, until finally a change came and after many disputes about the membership of the commission one was appointed and the strike ended.

### Spars With Lawyer.

Colonel Roosevelt was constantly sparring with Mr. Wales, who conducted his own case, when under cross-examination. Mr. Wales frequently angered him and he bent forward, shaking his head and sneering and scowling at him. He said he had never seen Mr. Wales before and knew nothing of any part which the plaintiff took in settling the strike.

Mr. Wales tried to make Colonel Roosevelt admit he was willing to violate the laws, defy the courts and disregard the constitution to settle the strike.

"I wouldn't accept your interpretation of the constitution," Colonel Roosevelt retorted. "I proposed that every action I took should be in accordance with the constitution as Abraham Lincoln construed it."

"Would you have settled the strike, law or no law?" persisted the plaintiff. "I'd have settled it," Colonel Roosevelt said. "I'd have found a law."

### SCHOLAR'S VISION GREATEST

Wilson Says It Is Worth More to the World Than His Industry.

Washington, May 28.—President Wilson and two members of his cabinet, Secretaries Bryan and Daniels, participated in the formal opening of the American university, the new national Methodist Episcopal school, located on the Potomac, overlooking the nation's capital.

"Scholarship, it seems to me," President Wilson said in his address, "is the mastery, the exact mastery and comprehension of great bodies of knowledge; and the comprehension is more difficult than the mastery. It is much easier to acquire than it is to interpret, and yet all knowledge is dead which is not interpreted. The vision of the scholar is worth more to the world than his industry."

### Soldier Saves Nine From Flames.

St. Louis, May 28.—Samuel Fitzgerald, a soldier stationed at Jefferson barracks, saved nine persons from probable incineration during a tenement fire here. Fitzgerald was passing the house when the fire was discovered. He climbed to a ledge giving him access to the second floor windows. From there he lowered a woman, six children and two men to the arms of policemen on the sidewalk.

### Gueringer Granted Stay.

Kansas City, May 28.—Vick Gueringer, sentenced to be hanged tomorrow for the part he took in an attack on Mrs. Gertrude Shidler here March 9, last, has been granted an appeal to the supreme court of the state. This acts automatically as a stay of execution.

### REBELS KILL CAPTIVES

Nephew of Porfirio Diaz, General and  
Nine Colonels Slain.

El Paso, May 29.—It has been  
learned that thirty-five women camp  
followers lost their lives with 300 fed-  
eral soldiers in the battle of Paredon,  
and thirty-seven federal officers were  
executed after the battle. Among  
those who fell before the firing squad  
were: General Munoz, the nephew of  
ex-President Porfirio Diaz; General  
Orson and nine colonels.

Reports of these executions at first  
were denied, but now seem well estab-  
lished. The men shot, it was said, reit-  
erated their loyalty to the Huerta gov-  
ernment, and rather than violate their  
oath of allegiance to it gave their  
lives. Also twelve members of the  
federal military band were shot, al-  
though this was done by constitution-  
alist soldiers without the sanction of  
their officers. After a stop had been  
put to the carnage, the remaining sev-  
en members of the band were asked to  
give a concert, a request which was  
met promptly.

Later at Hipolito the seven remain-  
ing musicians were seen to fraternize  
with the very men who had killed  
their comrades. This was the only  
instance in which enlisted men were  
executed.

General Alvarez, one of the federal  
commanders, met his death in an un-  
usual manner. After defeat had be-  
come certain he managed to crawl into  
a water tank of the train. A soldier  
who had pursued him was shot and  
severely wounded by the federal offi-  
cer. Two hand grenades were thrown  
into the tank, ending his life. Another  
federal officer, Colonel Ernestiano  
Hernandez, shot himself through the  
head.

As a constitutionalist officer re-  
marked, the federal officers all "died  
clean," they having bathed at Angelo,  
a watering place a few miles north of  
Paredon. General Guardiola, though  
wounded, escaped.

#### Candidate for County Clerk.

Fred J. Yeomans, the efficient and  
obliging deputy at the county clerk's  
office, has his official announcement  
in this issue for the office of county  
clerk on the Democratic ticket, subject  
to the primary election on August 4.  
Fred is well familiar with the work in  
the county clerk's office and that will  
make him a most feasible candidate  
for this office, and the Democrats  
would make no mistake in supporting  
him. His extended acquaintance over

the county would put him in a position  
to add much strength to the ticket, and  
if nominated would undoubtedly be a  
winner at the fall election. He stands  
on his own personality and efficiency  
and believes in giving his opponent in  
the primary the same consideration.

## YOUNG GIRL ENDS LIFE.

Burgie Lash Commits Suicide at Her Home, West of Burlington Junction.

Burgie Lash, the 14-year-old daughter of Mr. and Mrs. John Lash, committed suicide at the home of her brother, Millard Lash, on ranch 8, seven and one-half miles west of Burlington Junction, Tuesday morning, by shooting herself in the breast with a 32-calibre revolver. She had gone after the mail and when some time had elapsed and she did not return Mrs. Lash became alarmed and went to the mail box. She found the girl lying near with a revolver by her side.

Miss Lash has been staying at the home of her brother since her parents moved to a farm northwest of Tarkio. Tuesday morning at about 9:30 o'clock she started for the mail box, which is located about a mile from the house. Three hours later when she had not returned her sister-in-law became uneasy and went to the mail box. There is a little grove of trees about a hundred yards from the road, and as Mrs. Lash was passing she discovered the girl lying dead with the revolver near her side.

Mrs. Lash ran to the home of H. A. Smith, manager of the ranch, and informed them of the death, and the Atchison county officials were notified. Coroner Settles of Rock Port hurried to the ranch in an automobile and summoned a jury composed of the following men: Clyde Miller, F. A. Farris, Henry Miller, John McLain, W. P. Carpenter and W. W. Scarlett. After some deliberation the jury returned the following verdict: "We find that Burgie Lash came to her death from a gunshot wound self-inflicted."

The body was taken to the home of her brother and the funeral service was held at the Prairie Hill church at 10 o'clock Wednesday morning. Interment was made in the Prairie Hill

cemetery.

The cause for the girl's rash act is a mystery. She had been staying at the home of her brother, Millard Lash, since her parents moved away from the neighborhood this spring, in order to complete her term in the Happy Hill school. She passed the eighth grade examination this spring and was preparing for the commencement exercises, which will be held at York next Monday night. She was very studious in her books and made good grades in all her studies. She is survived by her parents, Mr. and Mrs. John Lash; her brother, Millard, and sister, Ethel.

The girl's untimely death is a sad blow to her relatives and friends and her parents firmly believe that she did not take her own life, but that the deed was committed by some one else.—Burlington Junction Post.

## Rejoicing Among Duck Hunters.

Duck hunters are in high feather as a result of the prospect of the spring shooting being restored to them, a modification of the federal migratory game law so as to conform with the state law having been promised by Washington officials. This means that the duck hunters of this state who have fought so nobly for a change in the regulations will be allowed to hunt ducks in the spring—the only time when there is good shooting in this state because of its location. The fall shooting is never good here and Missouri was placed in the wrong zone by the new law, thus eliminating what sport was formerly enjoyed.

## WHAT IS OLD AGE?

Some Younger at 65 Than Others Are at 40 Years.

Old age is not marked by years, but by the stiffened frame, the hardened tissues and arteries.

So many people whom you meet about the time they reach 40 begin by saying "I can't do this, and I can't do that, because I'm getting old now. They begin to act old, feel old and they are older in appearance than many who are much more advanced in years.

When you begin to feel old, when your energy begins to fail, build yourself up with our delicious cod liver and iron tonic, Vinol. It is a wonderful blood maker and strengthener.

H. C. Klyce of Corinth, Miss., says: "I am 75 years old and my blood was very poor. I was in a run-down condition and felt that I must have a tonic. Vinol was recommended and it built up my strength until I felt as strong and well as ever."

Thousands of old people have found in Vinol just the medicine they need to build up the feeble, weakened system and create strength. If it fails, we return your money. Orsair-Henry Drug Co., Maryville, Mo.—Advertisement.

Dry Weather Starts Army Worm.  
(By Leonard Haseman.)

The army worm is the latest scourge which is threatening agriculture in some counties of the state. Within the

past few days trouble has been reported from Barry, Vernon, Howard, Montgomery, St. Charles, Bates and St. Louis counties, and with continuing dry weather it is sure to prove injurious in other parts of the state. The army worm is a native insect found in greater or less abundance every year. When conditions are especially favorable it increases rapidly. It usually breeds in pastures, meadows, bottom waste land or in rye and wheat fields. When dry weather cuts short its food supply, it is obliged to migrate in search of fresh food and will destroy any cultivated crop which comes in its way. The army worm, at this time, is about half grown and will measure from one-half inch to a little over an inch in length. It is marked with light and dark stripes running lengthwise of its body.

In the control of the army worm, prevention is most effective. If crops are rotated so as not to permit sod to continue in a field too long or so as to break up waste lands regularly, the breeding of the pest can be largely prevented. At this time, however, remedies and not preventive measures are necessary.

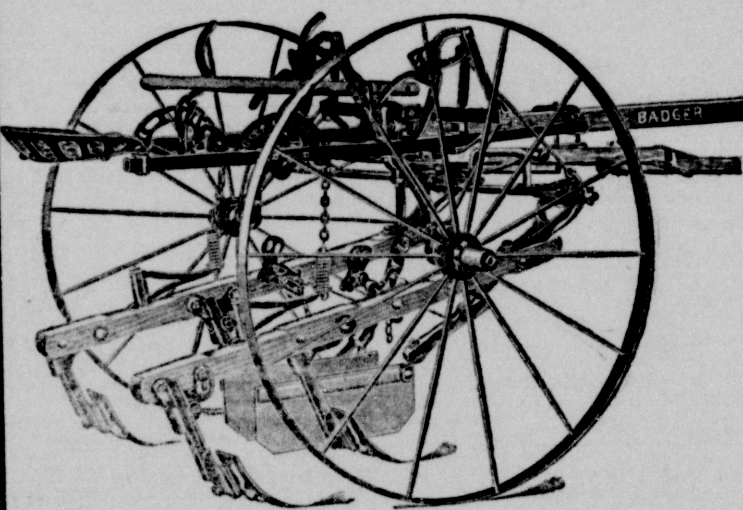

The Missouri college of agriculture recommends two methods of checking the army worm. The one consists of the use of a roller, weighted brush or drag run over the infested portions of fields so as to crush or grind up as many of the caterpillars as possible. This method can be used only in a relatively few cases on account of injuring growing crops. The second remedy is a ditch used as a trap into which the migrating worms fall where they can be killed with coal oil or by burning straw or similar material in the ditch. The ditch should be eight or ten inches deep and can be made by first plowing a deep furrow and then using a shovel to square up the side next to the crop to be protected. The army worm is a clumsy caterpillar and has trouble in climbing up a straight wall. Hogs and poultry help to reduce the army. Spraying with paris green or other poison is effective where it can be used. The pest usually migrates for from ten days to two

weeks. It feeds rapidly so remedies should be applied at once.

Missouri farmers will do their communities a favor by reporting all outbreaks of the army worm to the entomologist, college of agriculture, Co-

lumbia, Mo. Where possible, samples of the pest and a description of the fields and crops infested and a history of the work of the pest for the past few years should be sent with the report.

## Father Basil Injured.

Father Basil, resident priest of the Holy Family church of Conception, was injured in a runaway Sunday evening which came near fatally injuring him. A passing automobile frightened his horse, which ran and threw him out, causing several injuries which may be of a very serious nature. He was taken to St. Francis hospital in Maryville, where it is the supposition that one of his hips is broken. We extend our deepest sympathy to the Rev. Father, as his age makes the situation more serious. The entire community will learn of the sad accident with the deepest regrets and wish for his speedy recovery.—Conception Junction Courier.

J. Lucas Campbell, superintendent of schools at Parnell, was in St. Joseph yesterday in company with Mrs. Campbell. They were en route to their former home in Gallatin. Campbell will teach in the Springfield normal this summer, and this fall goes to the Jefferson City high school as head of the science department.—St. Joseph Gazette.

## A Veteran of Two Wars.

Hopkins has a citizen who has the distinction of being not only "an old soldier," but a veteran of the Mexican war as well.

We refer to Captain James Ewing, who is now in his ninetieth year, but is still active both in mind and body for a man of his advanced years.

He is just in receipt of an invita-

tion to attend the association of the Mexican war veterans to be held at Chillicothe, O., on June 9 and 10, 1914. The fact that the soldiers and sailors of the army and navy of the United States who are sacrificing their lives and energies to maintain respect for the American flag and the extension of free forms of government are now, as the veterans of the Mexican war, do battle on foreign soil and against hostile flags and governments, should attract to this gathering of veterans all to whom this call applies, and surround it with a special public significance.—Hopkins Journal.

It removes dandruff with one application; almost immediately stops falling hair and itching head; invigorates the scalp and makes dull, stringy hair soft, abundant and radiant with life. Equally good for men, women or children—every one needs it.

A large bottle of this delightful hair tonic can be had from T. J. Parle or any drug counter for 50 cents. You will surely like Parisian Sage. There is no other "just as good." Try it now.

DR. ELAM HEARD  
MESSAGE READ

Learned of Wife's Love Affair  
With Cramer by Wire.

## MRS. RILEY IS INTERMEDIARY.

Physician Hears Spouse Telephoned to Meet "Jesse" the Next Day at Kansas City—Suspicious When Finds Wife Seeks to Leave Town.

Kansas City, May 29.—Dr. W. T. Elam, who is on trial here for the alleged murder of N. P. Cramer, took the stand. Up to Sept. 15, 1913, his married life had been happy, he said. On that day, he said, he overheard an employee of a telegraph company in St. Joseph call Mrs. Elam on the telephone and give her a message signed "Jesse," asking her to meet the sender in Kansas City the next day.

The doctor said he immediately became suspicious. His suspicions became greater a few minutes later, he said, when Mrs. Robert Riley, who testified she had aided Cramer and Mrs. Elam to meet and correspond, called him on the telephone and asked him if Mrs. Elam might go to Kansas City with her the next day to "buy a suit." Thereupon, Dr. Elam said, he took down a telephone book and summoned John T. Glynn, a detective, to his office, where he told him the story and asked him to follow the women.

Miss Tim Fenton, a stenographer of St. Joseph, testified to co-operating with Mrs. Riley in assisting Cramer and Mrs. Elam in the correspondence.

Miss Fenton said she had done stenographic work for Dr. Elam. On Sept. 16, she said, she turned over to Dr. Elam, at his request, a letter from Cramer. Dr. Elam as he read it became greatly agitated, extremely pale, and his body shook. Turning to her, Dr. Elam said:

"Tim, my life has been ruined." Defense here introduced the letter in evidence. It was addressed to "Bill's Bert" and signed "Bert's Bill." It was dated "Chicago, Sept. 9, 1913," and read in part: "Expect to be in Milwaukee nearly all of next week and I'll look into the mail box every day. Maybe I'll find a surprise. Must go to work, lover."

Dr. Elam then painted a graphic picture of the scene in the room of a local hotel in which Cramer was killed when Dr. Elam confronted him with knowledge of Mrs. Elam's indiscretions. He said he drew his revolver to scare Cramer, when the latter grabbed him by the throat and that the shooting was accidental.

## RECLAMATION IS IN DANGER

Committee Report Adverse to Longer Time to Pay for Land.

Washington, May 29.—A dark picture of reclamation work and its prospects was presented by Representatives Borland of Missouri, White of Ohio, Carey of Pennsylvania and Mahan of Connecticut, members of the subcommittee on appropriations having to do with permanent appropriations, who went on record in a signed statement recommending that hereafter estimates for reclamation work and direct appropriations for such work be made by congress and that no new projects be undertaken except by permission of congress.

The majority wishes to shorten the time of payments. The minority, represented by Congressman Mondell of Wyoming, desires to extend the time in which payments should be made on reclamation projects from ten years, as at present, to twenty years.

## STORM IN SOUTH DAKOTA

Twister Carries Up Water From Missouri River.

Pierre, S. D., May 29.—A small twist or came down Bad river, jumping over Fort Pierre and dipping down into the Missouri, carrying up a huge column of water. It cleared the east end of the Northwestern railway bridge across the Missouri and unroofed several small structures in the extreme west end of this city.

A terrific wind and rain storm prevailed in the western part of the state, blowing down the tents of a circus at Philip. The storm started just before the tents were opened to the public and no one was injured.

EMPRESS OF  
IRELAND SINKING

Collides With Steamer Hanover  
Off Father Point.

## BOTH MAY HAVE GONE DOWN

"S. O. S." Signals Are Sent Out and Two Vessels Go to Scene, but Find No Trace of Hanover and Empress of Ireland.

Quebec, May 29.—A telegram from the Marconi station at Father point early this morning announced that the Canadian Pacific railway steamer Empress of Ireland had collided with another ship thirty miles east of Father point and was sinking.

"S. O. S." signals from the Empress brought the first announcement of the collision and the signals of distress were immediately responded to by the Canadian government steamer Eureka and the mail tender Lady Evelyn from Father point, which put out at once to render aid.

Father point kept in communication with the Empress of Ireland for a short time, but the responses of the disabled steamer suddenly ceased.

The Empress of Ireland was in command of Lieutenant Kendall, R. N., and left this port Thursday for Liverpool with seventy-seven first, 206 second and 504 third class passengers, a large mail and general cargo. With its crew it had some 1,200 persons aboard. Among its passengers is a large party of the Salvation Army going to the international conference of the army in London.

A later message said the colliding steamer was the Hanover of the Red Star German line, and bore the indication that perhaps both vessels had gone down.

The message was from Father point to the signal office.

"No sign of either Empress of Ireland or Hanover. Lifeboats visible in the distance circling around the C. G. S. Eureka. The government steamer Lady Evelyn is also in the scene now."

## ADMIRAL HOWARD PROTESTS

Insurgent Chieftain, in Justification, Points to Murder of Madero.

Nogales, Ariz., May 29.—According to a message received from General Alvaro Obregon, the constitutionalist commander, thirty-five federal officers captured by the constitutionalists at the city of Tepic were executed.

General Obregon's message says that Rear Admiral Howard, the American naval commander on the Pacific coast, telegraphed to the German consul at Tepic to intercede for the lives of the federalists "for the sake of humanity." But General Obregon answered the execution of the officers was necessary to prevent them making trouble in the future.

The federalists were taken to the cemetery and shot in squads, "on the score of humanity," General Obregon's message said.

"When the assassin, Huerta, murdered Madero the nations hastened to recognize his government and humanity was forgotten. Now that punishment is about to overtake Huerta and his minions, it is no time to cry 'humanity.'"

The soldiers of the Tepic garrison, for whose lives also the American admiral interceded, were paroled.

## PROGRAM OF NEW PARTY

Candidates Accepting Progressive Policies Won't Be Opposed.

Oyster Bay, N. Y., May 29.—The program of the Progressive party in the campaign this fall, as outlined thus far, is understood to be as follows:

1—No amalgamation with the Republican as such.

2—Fusion tickets in cases in which candidates who accept the policies of the Progressive party are nominated where the naming of two candidates of this description would split the liberal vote.

3—Insistence on policies rather than party names, and an endeavor to consolidate in every state the voters who approve of the principles of the Progressive party.

4—In New York state, the probable endorsement of the Republican candidate for governor, providing he is a man personally acceptable to the Progressives and is willing to approve their platform unequivocally.

## Ship and 29 Men Probably Lost.

Philadelphia, May 29.—A great quantity of wreckage seen floating in the ocean off Charleston, S. C., by the crew of the steamer Shawmut, from Jacksonville, Fla., is believed to be from the steamer F. J. Luckenbach, from Tampa, May 15, for Baltimore, which is about a week overdue. A revenue cutter is scouring the sea looking for the Luckenbach. The Luckenbach carried a crew of twenty-nine men, under Captain A. K. Webb of New York.

## Farmers' Union for Central Creamery

Freemont, Neb., May 29.—At a state meeting of the Farmers' Union held here it was unanimously voted to establish a central co-operative creamery to be operated under the direction of the state union. The principal argument for a central creamery advanced was that the big creamery companies do not live up to their contracts with the farmers.

## FRECKLES

Don't Hide Them With a Veil; Remove Them With the Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by druggists under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanish entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.

"The tight skirt," says an exchange in a headline, "is passing." "Which is too true," adds the Emporia Gazette. "One passed the window a moment ago through which we saw a wart on the left hind leg of a perfectly strange lady. That does seem a little informal even for these rapid times. In our grandmother's day no lady would show the wart on the southwest quarter of the east half of section 4, range 6, to a gentleman without at least the formality of an introduction. But now—we certainly are going some.—Hopkins Journal.

### ADAMS ELECTED CAPTAIN.

Of Normal Base Ball Team for Next Year—Members Entertained at Dinner.

The Normal school base ball team was entertained last night at the Linville hotel in honor of the closing of the season and of their victory over Warrensburg. The dinner was served at 6:30 o'clock. Rev. Robert L. Finch was the toastmaster of the occasion, and talks were given by Coach L. M. Eek, Prof. H. P. Swinehart, President Ira Richardson and Captain Reed Noblett of the team.

The games of the season were all replayed, the "bone heads" laughed over and the good plays commended. Base ball prospects for 1915 were found to be very rosy, as practically every man on the team will return.

At the close of the toasts the team showed their appreciation of Ed Adams' work this season by electing him captain of the team for the ensuing year. Pitcher Frank Ham was declared by a unanimous vote to have been the most valuable man to the team during the past year, and the handsome prize offered by Rev. Finch was awarded to him.

Rev. Finch has been one of the most loyal of the Normal's boosters this season, and the attitude of the men last night certainly demonstrated that he has been appreciated.

Those present were Reed Noblett, Ed Adams, Earl Brittain, Frank Ham, Eugene Bird, Walter Miller, Sam Long, Earl Richards, Marvin Dyer, Madison Wilson and Frank McKee of the team, Coach L. M. Eek, Rev. Robert L. Finch, H. P. Swinehart and President Ira Richardson.

## BANKERS VS. P. O.

FAST BALL GAME PROMISED FOR TOMORROW AFTERNOON.

## FOR REST ROOM BENEFIT

Rev. Finch Will Be the Umpire—The Postoffice Line-Up—Bankers Are Confident of Winning.

One of the interesting ball games of the season will be played tomorrow afternoon at 3:30 o'clock at the Normal ball park, when the bankers will combat with the postoffice employees. The proceeds of the game will go toward the employment of a matron for the rest rooms in the court house, and will be in charge of the Federation of Women's Clubs. Many tickets are being sold today and a good crowd is expected.

The bankers have been practicing some and seem to be confident that they will win with ease. The postoffice force are not saying anything for publication, but rumor has it that they are going to show the bankers how to play ball. So it will be a hotly contested game.

The bankers haven't decided on their line-up, but they will be selected from the following: Joseph Jackson, Jr., Harry Allen, John D. Richey, Ed Gray, E. E. Williams, John McDougal, Marve Curmott, Rolla Alexander, Harvey McClary, Theodore Robinson, Arch Frank, George Kemp, Burt Rowley, George L. Wilfley, W. C. Pierce, George B. Baker, S. G. Gillam, James B. Robinson, C. D. Bellows, Harry Snyder, W. H. Allen, with Charles Martin as the man to take care of the bats.

Rev. Robert L. Finch of the First Christian church will act as umpire.

For the postoffice, the line-up is as follows: Catcher, Charles Moore; pitcher, Emmett Scott; shortstop, Cleve Funk; first base, Fred French; second base, Eldon W. Irvin; third base, Howard Watson; left field, George Meek; center field, Ernest Welborn; right field, Robert G. Sanders; utility, John Spickerman; pinch hitter, James Todd; water boy, Albert "Curly" Williams; bat boy, Lefe Stamper; subs, Don Davis, J. S. Clark, Herman Barton, James Muntz, Louis Grems, Ed Dale, John Porter, Alva Maul, Madison Pearson and Joseph Updegraff.

P. S.—As we go to press we understand the postoffice force are greatly disheartened in the loss of their star pitcher, Louis Grems, better known as "Lefty Louie," who jumped his contract and joined the Federals.

## COMMENCEMENT EXERCISES

Of the Maryville Conservatory of Music Thursday Evening—Eight in the Graduating Class.

The commencement exercises of the Conservatory of Music were held at the First M. E. church Thursday night. A most delightful program, representing the best in piano literature, was given. Rossini, Haydn, Moszkowsky, Bellini, Liszt, Weber and Beethoven were appreciatively interpreted.

Miss Hazel Everhart, Miss Martha Koch, Miss Virdah Daniels and Mr. S. F. Spainhower opened the program with the "Barber of Seville" overture on two pianos, and were followed by a duet by Miss Lida Ambrose and Miss Margaret Bolin, "Concerto in D." Mr. Spainhower gave a piano number, "Waltz in A flat," and Miss Lois Harrison and Miss Lucy Gee rendered "Romeo and Juliette" overture in a creditable manner. A piano selection, "Liebestraum in A flat," was very attractively performed by Miss Everhart, who was followed by Miss Koch and Miss Daniels in a duet, "Finale from Concerto in C." The program was concluded with "First Movement from Fifth Symphony" by Miss Harrison, Miss Gee, Miss Ambrose and Miss Bolin on two pianos.

Miss Marie Jones assisted on the program with four vocal numbers, Cadman's "Land of the Skyblue Water," Spross' "Will o' the Wisp," "My Heart is Singing," by San Souci, and "An Open Secret," by Woodman, which were thoroughly enjoyed by the audience.

Rev. R. L. Finch, pastor of the Christian church, presented the diplomas.

## LAST ASSEMBLY OF QUARTER.

Held at Normal This Morning—Summer Term Opening Monday.

The last assembly of the Normal school for this spring quarter was held this morning at the usual hour.

The base ball team marched into the room in a body and were heartily applauded. President Richardson then gave a talk, commending the work done by the team, and also thanked all the men who had supported the school in an athletic way during the basketball and track season. Each phase of the school life of the year was touched upon and the speaker told how the students, as well as the school were benefited and helped by all of the many things outside of the actual recitation work in which they had participated.

President Richardson then asked Prof. John A. Lesh, who is to leave the Normal soon, to make a talk to the students. M. Lesh stressed preparation. "No matter how great a position is offered you," he said, "it can mean absolutely nothing to you unless you have the preparation to take it and make good."

Mr. Lesh has been a valued member of the Normal school faculty, and it is with regret that his fellow workers and the student body see him take up his work in other fields. Mr. Lesh will attend Harvard University during the coming school year.

The summer term of the Normal will open Monday. The indications are for the largest attendance at any term of the school.

## ANGUS YEARLINGS AT \$8.90.

Hopkins Feeder Gets Fancy Price for Black Babies.

Superiority of yearlings over aged heaves as market toppers was shown here today in the sale of a load of choice Angus yearling steers and heifers, mixed, at the extreme high point of the season, or \$8.90. There were twenty head in the lot, the average weight of which was 950 pounds. The owner and feeder of this attractive load of "black babies" was Joseph Holker, a well known feeder of Hopkins. Mr. Holker has long had the reputation of turning out some of the best cattle that come to this market from Nodaway county.—St. Joseph Stock Journal.

## All Stars Open Season Here Sunday

The All Stars will open the baseball season in Maryville Sunday at Riffe's park with the fast team from Bedford. The Bedford team has two former league stars in Hal Reynolds and "Bill" Howie and with the team well balanced in other departments should give the All Stars a run for their money. The All Stars played the fast Conception College at Conception last Sunday and got away with the big end of the score and have strong hopes of repeating Sunday. Come out and give the team a good boost. Game will start at 3:30.

O. H. Mahugh was arraigned in police court Friday on a charge of drunkenness and was fined \$5 and costs.

## DIXIE JUBILEE CO.

CHAUTAUQUA ASSOCIATION SECURES FAMOUS COLORED SINGERS.

## FOR FIRST TWO DAYS

For More Than Twenty Years This Company Has Delighted Audiences—Have Good Programs.

The Chautauqua association has secured for this season the famous Ferguson Dixie Jubilee Concert company. This company bears the reputation of being the best company of colored talent in the world. They will furnish the musical part of the program on the two opening days of the assembly, August 16 and 17.

There is really no necessity in writing any preamble or announcement in offering the Dixie Jubilee singers to

the American public. For more than twenty years this company, still in charge of W. C. Buckner, has been delighting audiences throughout the entire United States and Canada. During all that time it has been necessary to utter an apology either for the work or the actions of the company. For this entire time Mr. Buckner has been manager and basso. He was first known to the public as basso of the original Tennesseeans, and is without question the best known basso and manager of his race.

Madame Neale Hawkins Buckner has been with the company ever since its start. Before her connection with this company she starred with one of the most popular musical attractions known to the theatrical world. She is the greatest soprano of her race and has been especially effective in building up the reputation of the company as the greatest jubilee attraction the country has ever known.

Honey Moore, tenor and humorist, has been with the Dixies for twelve years and is known wherever this great company has appeared.

Helen Smallwood, contralto, has been with the company two seasons, and is unquestionably the most popular and most satisfactory singer they have ever secured for that position. M. E. Atkinson, tenor, has been with the company four seasons, and has won the approbation of every audience. He has an exceptionally high voice of splendid quality, especially pleasing in ballad and jubilee selections.

Ailie B. Freeman, pianist, is one of the best soloists and her work with this splendid attraction has brought forth a great deal of very favorable comment.

Hilliard Bird, baritone, has been with the company for two years, giving the very best of satisfaction.

The programs presented by the Dixies, are the greatest successes ever presented by a jubilee company. They draw from a fine repertoire of music, rich in harmony and varied in selection.

## ROOSEVELT SAYS ARMY WAS READY

Planned to Send Troops Into Coal Strike Region in 1902.

### SPARS WITH LAWYER WALES

Colonel, in Giving Testimony, Says He Was Prepared to Take Measures "Equivalent to Action in Time of War" to End Strike.

New York, May 28.—Theodore Roosevelt, as president, was to take measures "equivalent to action in time of war" to end the great strike in the anthracite mines in 1902. He was determined to take action even though an effort should be made later to impeach him for it.

Mr. Roosevelt so testified in giving testimony here before a referee in the suit of Alexander T. Wales, a lawyer of Binghamton, against John P. White, president of the United Mine Workers of America, for fees he alleges are due him for the part he took in settling the strike.

"In September," said Mr. Roosevelt, "the situation began to grow acute. It was a situation full of menace to the country. I regarded the attitude of John Mitchell, then head of the miners, as reasonable and the attitude of the operators as unreasonable and offensive."

#### Army to Back Roosevelt.

"I made up my mind I would have to take drastic action unless the operators and miners got together. I intended to send in the United States army—I only wanted to get it in there, and I'd take care of the situation. I told Senator Quay of Pennsylvania I'd act, and I'd guarantee that the people of the eastern seaboard would have coal and have it right away. I told him if he would help me, he could vote to impeach me later if he wished. I asked Quay to arrange to have Governor Stone of Pennsylvania, when I notified the governor, send word to me he was unable to control the situation and then I would send in the army."

"I planned to have General Schofield to go in and take charge with the troops, and act practically as a receiver for the mines. I told the general it would be equivalent to action taken in time of war and that he must pay no heed to any other authority—no heed to a writ from a judge or anything else except my commands. He said he would do so."

Colonel Roosevelt said he kept his plan secret, even from the members of his cabinet. The operators, he said, persisted in their uncompromising plan, until finally a change came and after many disputes about the membership of the commission one was appointed and the strike ended.

#### Spars With Lawyer.

Colonel Roosevelt was constantly sparring with Mr. Wales, who conducted his own case, when under cross-examination. Mr. Wales frequently angered him and he bent forward, shaking his finger at the lawyer and scowling at him. He said he had never seen Mr. Wales before and knew nothing of any part which the plaintiff took in settling the strike.

Mr. Wales tried to make Colonel Roosevelt admit he was willing to violate the laws, defy the courts and disregard the constitution to settle the strike.

"I wouldn't accept your interpretation of the constitution," Colonel Roosevelt retorted. "I proposed that every action I took should be in accordance with the constitution as Abraham Lincoln construed it."

"Would you have settled the strike, law or no law?" persisted the plaintiff. "I'd have settled it," Colonel Roosevelt said. "I'd have found a law."

### SCHOLAR'S VISION GREATEST

Wilson Says It Is Worth More to the World Than His Industry.

Washington, May 28.—President Wilson and two members of his cabinet, Secretaries Bryan and Daniels, participated in the formal opening of the American university, the new national Methodist Episcopal school, located on the Potomac, overlooking the nation's capital.

"Scholarship, it seems to me," President Wilson said in his address, "is the mastery, the exact mastery and comprehension of great bodies of knowledge; and the comprehension is more difficult than the mastery. It is much easier to acquire than it is to interpret, and yet all knowledge is dead which is not interpreted. The vision of the scholar is worth more to the world than his industry."

#### Soldier Saves Nine From Flames.

St. Louis, May 28.—Samuel Fitzgerald, a soldier stationed at Jefferson barracks, saved nine persons from probable incineration during a tenement fire here. Fitzgerald was passing the house when the fire was discovered. He climbed to a ledge giving him access to the second floor windows. From there he lowered a woman, six children and two men to the arms of policemen on the sidewalk.

#### Gueringer Granted Stay.

Kansas City, May 28.—Vick Gueringer, sentenced to be hanged tomorrow for the part he took in an attack on Mrs. Gertrude Shidler here March 9, last, has been granted an appeal to the supreme court of the state. This acts automatically as a stay of execution.

The advanced pupils of Miss Alma M. Nash will give a concert at the First Baptist church Thursday evening, June 4th. In addition to a number of solos, duets, quartets and novelty numbers, there will be several numbers by a string orchestra of sixteen pieces. Those who will take part in the program have been rehearsing for some time and this concert promises to be one of the best entertainments they have ever given.

#### To Attend Funeral.

Mrs. William Thornhill and Mrs. Will Edwards left Thursday evening for Friend, Neb., where they will attend the funeral of Mrs. Edward Helms Welch. Mrs. Welch, who was a former Maryville resident, was well known in this vicinity.

#### REBELS KILL CAPTIVES

Nephew of Porfirio Diaz, General and  
Nine Colonels Slain.

El Paso, May 29.—It has been learned that thirty-five women camp followers lost their lives with 300 federal soldiers in the battle of Paredon, and thirty-seven federal officers were executed after the battle. Among those who fell before the firing squad were: General Munoz, the nephew of ex-President Porfirio Diaz; General Orsano and nine colonels.

Reports of these executions at first were denied, but now seem well established. The men shot, it was said, reiterated their loyalty to the Huerta government, and rather than violate their oath of allegiance to it gave their lives. Also twelve members of the federal military band were shot, although this was done by constitutional soldiers without the sanction of their officers. After a stop had been put to the carnage, the remaining seven members of the band were asked to give a concert, a request which was met promptly.

Later at Hipolito the seven remaining musicians were seen to fraternize with the very men who had killed their comrades. This was the only instance in which enlisted men were executed.

General Alvarez, one of the federal commanders, met his death in an unusual manner. After defeat had become certain he managed to crawl into a water tank of the train. A soldier who had pursued him was shot and severely wounded by the federal officer. Two hand grenades were thrown into the tank, ending his life. Another federal officer, Colonel Ernestano Hernandez, shot himself through the head.

As a constitutional officer remarked, the federal officers all "died clean," they having bathed at Angeles, a watering place a few miles north of Paredon. General Guardiola, though wounded, escaped.

#### Candidate for County Clerk.

Fred J. Yeomans, the efficient and obliging deputy at the county clerk's office, has his official announcement in this issue for the office of county clerk on the Democratic ticket, subject to the primary election on August 4. Fred is well familiar with the work in the county clerk's office and that will make him a most feasible candidate for this office, and the Democrats would make no mistake in supporting him. His extended acquaintance over

the county would put him in a position to add much strength to the ticket, and if nominated would undoubtedly be a winner at the fall election. He stands on his own personality and efficiency and believes in giving his opponent in the primary the same consideration.

## YOUNG GIRL ENDS LIFE.

Burgie Lash Commits Suicide at Her Home, West of Burlington Junction.

Burgie Lash, the 14-year-old daughter of Mr. and Mrs. John Lash, committed suicide at the home of her brother, Millard Lash, on ranch 8, seven and one-half miles west of Burlington Junction, Tuesday morning, by shooting herself in the breast with a 32-calibre revolver. She had gone after the mail and when some time had elapsed and she did not return Mrs. Lash became alarmed and went to the mail box. She found the girl lying near with a revolver by her side.

Miss Lash has been staying at the home of her brother since her parents moved to a farm northwest of Tarkio. Tuesday morning at about 9:30 o'clock she started for the mail box, which is located about a mile from the house. Three hours later when she had not returned her sister-in-law became uneasy and went to the mail box. There is a little grove of trees about a hundred yards from the road, and as Mrs. Lash was passing she discovered the girl lying dead with the revolver near her side.

Mrs. Lash ran to the home of H. A. Smith, manager of the ranch, and informed them of the death, and the Atchison county officials were notified. Coroner Settles of Rock Port hurried to the ranch in an automobile and summoned a jury composed of the following men: Clyde Miller, F. A. Farris, Henry Miller, John McLain, W. P. Carpenter and W. W. Scarlett. After some deliberation the jury returned the following verdict: "We find that Burgie Lash came to her death from a gunshot wound self-inflicted."

The body was taken to the home of her brother and the funeral service was held at the Prairie Hill church at 10 o'clock Wednesday morning. Interment was made in the Prairie Hill

cemetery.

The cause for the girl's rash act is a mystery. She had been staying at the home of her brother, Millard Lash, since her parents moved away from the neighborhood this spring, in order to complete her term in the Happy Hill school. She passed the eighth grade examination this spring and was preparing for the commencement exercises, which will be held at York next Monday night. She was very studious in her books and made good grades in all her studies. She is survived by her parents, Mr. and Mrs. John Lash; her brother, Millard, and sister, Ethel.

The girl's untimely death is a sad blow to her relatives and friends and her parents firmly believe that she did not take her own life, but that the deed was committed by some one else.—Burlington Junction Post.

## Rejoicing Among Duck Hunters.

Duck hunters are in high feather as a result of the prospect of the spring shooting being restored to them, a modification of the federal migratory game law so as to conform with the state law having been promised by Washington officials. This means that the duck hunters of this state who have fought so nobly for a change in the regulations will be allowed to hunt ducks in the spring—the only time when there is good shooting in this state because of its location. The fall shooting is never good here and Missouri was placed in the wrong zone by the new law, thus eliminating what sport was formerly enjoyed.

## WHAT IS OLD AGE?

Some Younger at 65 Than Others Are at 40 Years.

Old age is not marked by years, but by the stiffened frame, the hardened tissues and arteries.

So many people whom you meet about the time they reach 40 begin by saying "I can't do this, and I can't do that, because I'm getting old now. They begin to act old, feel old and they are older in appearance than many who are much more advanced in years.

When you begin to feel old, when your energy begins to fail, build yourself up with our delicious cod liver and iron tonic, Vinol. It is a wonderful blood maker and strengthener.

H. C. Klyce of Corinth, Miss., says: "I am 75 years old and my blood was very poor. I was in a run-down condition and felt that I must have a tonic. Vinol was recommended and it built up my strength until I felt as strong and well as ever."

Thousands of old people have found in Vinol just the medicine they need to build up the feeble, weakened system and create strength. If it fails, we return your money. Orsair-Henry Drug Co., Maryville, Mo.—Advertisement.

Dry Weather Starts Army Worm.  
(By Leonard Haseman.)

The army worm is the latest scourge which is threatening agriculture in some counties of the state. Within the

past few days trouble has been reported from Barry, Vernon, Howard, Montgomery, St. Charles, Bates and St. Louis counties, and with continuing dry weather it is sure to prove injurious in other parts of the state. The army worm is a native insect found in greater or less abundance every year. When conditions are especially favorable it increases rapidly. It usually breeds in pastures, meadows, bottom waste land or in rye and wheat fields. When dry weather cuts short its food supply, it is obliged to migrate in search of fresh food and will destroy any cultivated crop which comes in its way. The army worm, at this time, is about half grown and will measure from one-half inch to a little over an inch in length. It is marked with light and dark stripes running lengthwise of its body.

In the control of the army worm, prevention is most effective. If crops are rotated so as not to permit sod to continue in a field too long or so as to break up waste lands regularly, the breeding of the pest can be largely prevented. At this time, however, remedies and not preventive measures are necessary.

The Missouri college of agriculture recommends two methods of checking the army worm. The one consists of the use of a roller, weighted brush or drag run over the infested portions of fields so as to crush or grind up as many of the caterpillars as possible. This method can be used only in a relatively few cases on account of injuring growing crops. The second remedy is a ditch used as a trap into which the migrating worms fall where they can be killed with coal oil or by burning straw or similar material in the ditch. The ditch should be eight or ten inches deep and can be made by first plowing a deep furrow and then using a shovel to square up the side next to the crop to be protected. The army worm is a clumsy caterpillar and has trouble in climbing up a straight wall. Hogs and poultry help to reduce the army. Spraying with paris green or other poison is effective where it can be used. The pest usually migrates for from ten days to two

weeks. It feeds rapidly so remedies should be applied at once.

Missouri farmers will do their communities a favor by reporting all outbreaks of the army worm to the entomologist, college of agriculture, Co-

lumbia, Mo. Where possible, samples of the pest and a description of the fields and crops infested and a history of the work of the pest for the past few years should be sent with the report.

It removes dandruff with one application; almost immediately stops falling hair and itching head; invigorates the scalp and makes dull, stringy hair soft, abundant and radiant with life. Equally good for men, women or children—every one needs it.

## DR. ELAM HEARD MESSAGE READ

Learned of Wife's Love Affair  
With Cramer by Wire.

### MRS. RILEY IS INTERMEDIARY.

Physician Hears Spouse Telephoned to Meet "Jess" the Next Day at Kansas City—Suspicious When Finds Wife Seeks to Leave Town.

Kansas City, May 29.—Dr. W. T. Elam, who is on trial here for the alleged murder of N. P. Cramer, took the stand. Up to Sept. 15, 1913, his married life had been happy, he said. On that day, he said, he overheard an employee of a telegraph company in St. Joseph call Mrs. Elam on the telephone and give her a message signed "Jess," asking her to meet the sender in Kansas City the next day.

The doctor said he immediately became suspicious. His suspicions became greater a few minutes later, he said, when Mrs. Robert Riley, who testified she had aided Cramer and Mrs. Elam to meet and correspond, called him on the telephone and asked him if Mrs. Elam might go to Kansas City with her the next day to "buy a suit." Thereupon, Dr. Elam said, he took down a telephone book and summoned John T. Glynn, a detective, to his office, where he told him the story and asked him to follow the women.

Miss Tim Fenton, a stenographer of St. Joseph, testified to co-operating with Mrs. Riley in assisting Cramer and Mrs. Elam in the correspondence. Miss Fenton said she had done stenographic work for Dr. Elam. On Sept. 16, she said, she turned over to Dr. Elam, at his request, a letter from Cramer. Dr. Elam as he read it became greatly agitated, extremely pale, and his body shook. Turning to her, Dr. Elam said:

"Tim, my life has been ruined." Defense here introduced the letter in evidence. It was addressed to "Bill's Bert" and signed "Bert's Bill." It was dated "Chicago, Sept. 9, 1913," and read in part: "Expect to be in Milwaukee nearly all of next week and I'll look into the mail box every day. Maybe I'll find a surprise. Must go to work, lover."

Dr. Elam then painted a graphic picture of the scene in the room of a local hotel in which Cramer was killed when Dr. Elam confronted him with knowledge of Mrs. Elam's indiscretions. He said he drew his revolver to scare Cramer, when the latter grabbed him by the throat and that the shooting was accidental.

### RECLAMATION IS IN DANGER

Committee Report Adverse to Longer Time to Pay for Land.

Washington, May 29.—A dark picture of reclamation work and its prospects was presented by Representatives Borland of Missouri, White of Ohio, Carey of Pennsylvania and Mahan of Connecticut, members of the subcommittee on appropriations having to do with permanent appropriations, who went on record in a signed statement recommending that hereafter estimates for reclamation work and direct appropriations for such work be made by congress and that no new projects be undertaken except by permission of congress.

The majority wishes to shorten the time of payments. The minority, represented by Congressman Mondell of Wyoming, desires to extend the time in which payments should be made on reclamation projects from ten years, as at present, to twenty years.

### STORM IN SOUTH DAKOTA

Twister Carries Up Water From Missouri River.

Pierre, S. D., May 29.—A small twister came down Bad river, jumping over Fort Pierre and dipping down into the Missouri, carrying up a huge column of water. It cleared the east end of the Northwestern railway bridge across the Missouri and unroofed several small structures in the extreme west end of this city.

A terrific wind and rain storm prevailed in the western part of the state, blowing down the tents of a circus at Philip. The storm started just before the tents were opened to the public and no one was injured.

## EMPRESS OF IRELAND SINKING

Collides With Steamer Hanover  
Off Father Point.

### BOTH MAY HAVE GONE DOWN

"S. O. S." Signals Are Sent Out and Two Vessels Go to Scene, but Find No Trace of Hanover and Empress of Ireland.

Quebec, May 29.—A telegram from the Marconi station at Father point early this morning announced that the Canadian Pacific railway steamer Empress of Ireland had collided with another ship thirty miles east of Father point and was sinking.

"S. O. S." signals from the Empress brought the first announcement of the collision and the signals of distress were immediately responded to by the Canadian government steamer Eureka and the mail tender Lady Evelyn from Father point, which put out at once to render aid.

Father point kept in communication with the Empress of Ireland for a short time, but the responses of the disabled steamer suddenly ceased.

The Empress of Ireland was in command of Lieutenant Kendall, R. N., and left this port Thursday for Liverpool with seventy-seven first, 206 second and 504 third class passengers, a large mail and general cargo. With its crew it had some 1,200 persons aboard. Among its passengers is a large party of the Salvation Army going to the international conference of the army in London.

A later message said the colliding steamer was the Hanover of the Red Star, German line, and bore the indication that perhaps both vessels had gone down.

The message was from Father point to the signal office.

"No sign of either Empress of Ireland or Hanover. Lifeboats visible in the distance circling around the C. G. S. Eureka. The government steamer Lady Evelyn is also in the scene now."

### ADMIRAL HOWARD PROTESTS

Insurgent Chieftain, in Justification, Points to Murder of Madero.

Nogales, Ariz., May 29.—According to a message received from General Alvaro Obregon, the constitutionalist commander, thirty-five federal officers captured by the constitutionalists at the city of Tepic were executed.

General Obregon's message says that Rear Admiral Howard, the American naval commander on the Pacific coast, telegraphed to the German consul at Tepic to intercede for the lives of the federalists "for the sake of humanity," but General Obregon answered the execution of the officers was necessary to prevent them making trouble in the future.

The federalists were taken to the cemetery and shot in squads, "on the score of humanity," General Obregon's message said.

"When the assassin, Huerta, murdered Madero the nations hastened to recognize his government and humanity was forgotten. Now that punishment is about to overtake Huerta and his minions, it is no time to cry 'humanity.'"

The soldiers of the Tepic garrison, for whose lives also the American admiral interceded, were paroled.

### PROGRAM OF NEW PARTY

Candidates Accepting Progressive Policies Won't Be Opposed.

Oyster Bay, N. Y., May 29.—The program of the Progressive party in the campaign this fall, as outlined thus far, is understood to be as follows:

1—No amalgamation with the Republican as such.

2—Fusion tickets in cases in which candidates who accept the policies of the Progressive party are nominated where the naming of two candidates of this description would split the liberal vote.

3—Insistence on policies rather than party names, and an endeavor to consolidate in every state the voters who approve of the principles of the Progressive party.

4—In New York state, the probable endorsement of the Republican candidate for governor, providing he is a man personally acceptable to the Progressives and is willing to approve their platform unequivocally.

### Ship and 29 Men Probably Lost.

Philadelphia, May 29.—A great quantity of wreckage seen floating in the ocean off Charleston, S. C., by the crew of the steamer Shawmut, from Jacksonville, Fla., is believed to be from the steamer F. J. Luckenbach, from Tampa, May 15, for Baltimore, which is about a week overdue. A revenue cutter is scouring the sea looking for the Luckenbach. The Luckenbach carried a crew of twenty-nine men, under Captain A. K. Webb of New York.

Farmers' Union for Central Creamery

Premont, Neb., May 29.—At a state meeting of the Farmers' Union held here it was unanimously voted to establish a central co-operative creamery to be operated under the direction of the state union. The principal argument for a central creamery advanced was that the big creamery companies do not live up to their contracts with the farmers.

## FRECKLES

Don't Hide Them With a Veil; Remove Them With the Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by druggists under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanish entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.

"The tight skirt," says an exchange in a headline, "is passing." "Which is too true," adds the Emporia Gazette. "One passed the window a moment ago through which we saw a wart on the left hind leg of a perfectly strange lady. That does seem a little informal even for these rapid times. In our grandmother's day no lady would show the wart on the southwest quarter of the east half of section 4, range 6, to a gentleman without at least the formality of an introduction. But now—we certainly are going some—Hopkins Journal.
